

OUPV/100 TON MASTER LICENSE TRAINING SCHEDULE 2008/2009

Do you dream of earning a living on the water by taking people out for fishing excursions, dive trips or other marine experiences? Can you see yourself as the Captain of your own charter boat company? Then come to *Massachusetts Maritime Academy* for our OUPV ("Six Pack") and 100 Ton Master License courses. These USCG-approved courses provide a welcome alternative to license and examination preparation courses. USCG exams are offered at MMA, minimizing the stress of driving to Boston for testing. With our day course, you can finish in just two weeks. Or sign up for the evening format to complement your schedule. Whichever you choose, take the next step in achieving your dream. Full Career Services are available to our students.
