Knowledge rate (as of one-year update)*: 97% 94% 97%

Career outcomes rate for those responding**: 91% 92% 99%

*The knowledge rate reflects the percentage of surveyed graduates for which reasonable and verifiable information concerning postgraduation initial career activities was obtained. Information collection on each graduating class begins with a spring online survey at June graduation. Data collection continues throughout the following year with the collection of any missing data as well as the updating of any known changes in graduates’ information via other verifiable sources, such as direct outreach to graduates and LinkedIn profiles. Updated statistics are provided at 6 months and one year. Unlike the June survey response rate, the knowledge rate does not take into account surveyed students who were later discovered to have not completed graduation requirements.

**Reflects students who have a job, students entering active military duty, students pursuing additional undergraduate coursework, students attending graduate/professional school, students engaged in volunteer service, and students still seeking placement (n=235, Class of 2015). Does not include students who are not seeking placement (n=3, Class of 2015) and students who have not completed graduation requirements (n=35, Class of 2015). Nonrespondents also not reflected (n=8, Class of 2015).
Career Outcomes Status at 1 Year

$n=238$ (excludes students who have not completed graduation requirements ($n=35$). Note that Career Outcomes Status reflects all possible placement statuses after graduation, including those placed (e.g., in employment, military or volunteer service, or further schooling), not placed (i.e., still seeking placement), and not seeking placement.
