*The data reflected here represent the initial career outcomes for the undergraduate Class of 2015. Data collection begins with a spring online survey at June graduation and continues throughout the following year with the collection of any missing data as well as the updating of any known changes in graduates’ information via other verifiable sources, such as direct outreach to graduates and LinkedIn profiles. Data shown reflect initial statistics from the June graduation survey and updated statistics gathered through 6 months (final updated figures will be collected by 1 year).

*Reflects students who have a job, students entering active military duty, students pursuing additional undergraduate coursework, students attending graduate/professional school, students engaged in volunteer service, and students still seeking placement (n=193, 6-month update). Does not include students who are not seeking placement (n=2) and students who have not completed graduation requirements (n=35). Nonrespondents also not reflected.
Class of 2015 Placement

* n=193 (statistics exclude students who are not seeking placement (n=2) and students who have not completed graduation requirements (n=35))
